

## ATV SPREADER

**Designed to save time when you need to spread in less than favorable weather conditions. The Precision ATV seeder mounts on most all terrain vehicles for spreading seeds, fertilizer, granular insecticide and herbicides.**

- Spreads Clover or Alfalfa 28' wide.**
- Holds 75 lbs. of fertilizer or 1.2 bushels of seed.**
- Corrosion resistant construction means this spreader will last for years of dependable service.**
- All parts are serviceable should they become damaged**

---

### Precision ATV seeders include these standard features

- Stainless steel agitator to ensure material keeps flowing.**
- Stainless steel slide and bottom plate.**

- Cast aluminum four bladed fan.**
- Low amp draw motor won't drain your ATV battery.**

- Heavy duty one piece cast iron base.**
- Indexed stainless steel rate setting lever.**
- Standard 12V wiring harness with in line fuse hooks on to ATV battery.**
- Moveable bottom allows you to center the spread pattern.**
